

Question 1 — Mini Grocery Inventory

Create a console-based **Grocery Inventory System**.

The program should maintain a list of grocery items. Each item should contain:

- Item ID
- Item name
- Price

The program should provide the following menu:

1. Add Item
2. Remove Item
3. Show All Items
4. Calculate Total Inventory Value
5. Exit

Requirements

Add Item

- Take the item's ID, name, and price from the user.
- Add the item to the inventory.

Remove Item

- Ask the user for an item ID.
- Remove the item with that ID.
- If the item does not exist, display an appropriate message.

Show All Items

- Display all items in the inventory.
- If there are no items, display an appropriate message.

Calculate Total Inventory Value

- Calculate the sum of all item prices.
- Display the total value.

Concepts being tested

- List
- Map
- Functions
- Loops
- User input
- Named/positional parameters
- if conditions

Question 2 — FizzBuzz

Write a Dart program that takes an integer **N** from the user and prints all numbers from **1** to **N**.

However:

- If the number is divisible by **3**, print **Fizz**
- If the number is divisible by **5**, print **Buzz**
- If the number is divisible by **both 3 and 5**, print **FizzBuzz**
- Otherwise, print the number itself.

Example:

Input:

Enter N: 15

Output:

1
2
Fizz
4
Buzz
Fizz
7
8
Fizz
Buzz
11
Fizz
13
14
FizzBuzz

Concepts being tested

- **for** loop
- Functions
- Parameters
- Conditions
- Modulus operator **%**

Question 3 — Movie Collection

Create a program that manages a collection of movies.

The program should have the following options:

1. Add Movie
2. Remove Movie
3. Show All Movies
4. Calculate Average Rating
5. Exit

Each movie should contain:

- Movie name
- Rating from 0 to 10

Requirements

Add Movie

Take the movie name and rating from the user and add it to the collection.

Remove Movie

Ask for the movie name and remove it.

If the movie doesn't exist, display:

Movie not found.

Show All Movies

Display every movie and its rating.

Example:

Interstellar - 9.2

Inception - 8.8

The Dark Knight - 9.0

Calculate Average Rating

Calculate and display the average rating of all movies.

If there are no movies, handle the situation properly.

Concepts being tested

- List
- Map
- Loops
- Functions
- User input
- Arithmetic
